This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

+ *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
+ *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
+ *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
+ *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. TABLE of

—OF—

MARYLAND CASES CITED

—BY THE—

COURT OF APPEALS

—AND THE—

HIGH COURT OF CHANCERY

TO VOL. 89, MARYLAND REPORTS, INCLUSIVE.

BY

H. OLIVER THOMPSON,

OF THE BALTIMORE BAR.

BALTIMORE:

WM. J. C. DULANY COMPANY, PRINTERS.

1900

PREFACE.

In the compilation of this table it has been assumed that any one looking for the citations of a case will know the proper title of that case, and therefore, although cases have sometimes been cited by a slightly different name than the title as printed in the Reports, the citations have been placed under the proper titles.

The following citations cannot be verified and have been omitted: Mitchell v. Mitchell, 4 Md., 377, cited in Wilhelm v. Caylor, 32 Md., 169. McMahon v. Morrison, 16 Md., 172, cited in Christopher v. Christopher, 64 Md., 585.

The attempt has been made to give a cross reference to all cases in which a corporation is appellant and an individual is appellee by putting in the name of the appellee followed by the word "case," and on the next line "*vide*" the title of the case, e. g.:

Blocher's Case, 27 Md.
vide Balto. & Ohio R. R. Co. v. Blocher, 27 Md., 277;

and also in all cases where either the appellant or appellee is the "State use of ———" the name of the equitable appellant or appellee is given as a cross reference, e. g.:

Keyser's Case, 30 Md.
vide Deford v. State use Keyser, 30 Md., 179.

Steever's Case, 70 Md.
vide State use Steever v. Union R. R. Co., 70 Md., 69.

Where cases of the same name appear in several of the volumes they are arranged in the following order: Bland,

Maryland Chancery, Harris & McHenry, Harris & Johnson, Harris & Gill, Gill & Johnson, Gill, Maryland Reports.

The initial page only of the case cited is used, but the exact page on which the citation will be found is given.

The omission of the page in some of the citations in 89 Md. is due to that volume not having been entirely printed at the time this table went to press. The pages will be found under Addenda, on page vi.
